The Duke of Manchester has compromised his debts for 60 cents on the dollar. Father-in-law Zimmerman furnished the 60 per cent.

Huntsville, Ala., is becoming a manufacturing city. The eighth cotton mill, a $100,000 plant, owned by a New York capitalist, will be soon in operation.

For a young inventor Paul B. Bosch, aged 16, of York, Pa., is starting out pretty well. He has patented a device for increasing the speed of locomotives for which he has refused $30,000.

Honors are crowding on Mark Hanna. A short while ago a Cleveland army post made him a Col. and now an Ohio college has decorated him with an LL. D. Hanna went through college in about three months, but not that college.

As far as heftiness goes Mr. McKinley's Philippine commission fills the bill. The members average 222 pounds. Judge Taft leads with 296. He swung all that around a few nights ago in a dance with a reconstructed senorita.

Louis Dewark is the champion heavy weight of Currituck county. He is only 17 years old, but weighs, without any bricks in his pockets, 690 pounds. His foot is thirteen inches long and built in proportion. He is muscular, too, and can lift a weight that it would require five or six ordinary men to move.

Mr. Schwab, of the Steel combine, made a hit the other day. He paid off a little debt on a church and then about two hundred women in the congregation kissed him, although his wife was right there, sympathizing with him. After this experience he will not be in a hurry to put more money in that church.

A lot of farmers in Kansas, who were in danger of losing their wheat crops for want of harvesters, solved the problem by holding up an immigrant train passing through, and compelled the immigrants to get out and help them harvest, at a pay of $3.50 a day. This was the largest pay they ever earned and it came to them in the queerest way they ever saw.

DAY WE CELEBRATE

Fourth of July Will Be Very Elaborately Celebrated By Wilmington Folks.

THE VARIOUS ATTRACTIONS

Programmes of Resplendent Features at the Beaches and Other Resorts. Admirable Schedules on All Transportation Lines.

"The Glorious Fourth"—a somewhat hackneyed phrase, doubtless frayed at the edges, but nevertheless very expressive as applied to the big holiday as it will be observed in Wilmington and its vicinity to day.

A general outline of the features of celebration at the beaches and at other adjacent retreats was given in yesterday morning's paper, and as the average citizen has already decided the all absorbing question of "where shall I spend the holiday?" it is unnecessary to repeat programmes at this late hour. It will be an all-day affair, it matters not where the "Fourth" is taken in.

At Wrightsville both Carolina and Atlantic clubs have resplendent programmes for the entertainment of their members and invited guests and both hotels will arrange their daily routine to conform to the spirit of the day. The high diving of Prof. Holland and the base ball game between local teams will be among the features. The Wilmington Seacoast Railroad has on its emergency schedule of ten trains each way and one may leave or return to the city at will.

The annual regatta of the Carolina Yacht Club at Wrightsville will, of course, be fraught with its old-time interest. It will begin at 10:30 A. M. promptly and the following entries have been made, with captain and handicap allowed each:

"Emma"—C. W. Worth, none.
"Phantom"—John Williams, none.
"Frolic"—T. W. Davis, 3:54.
"Eugenia"—Geo. Harriss, 4:48.
"Sadie"—S. P. Cowan, 5:16.
"Question"—R. A. Parsley, 5:30.
"Unquero"—Dr. Thomas, 5:30.
"Lark"—Clayton Giles, 5:30.
"Lark"—Davis, 5:30.
"Mabel"—J. VanB. Metts, 9:00.
"Sprite"—H. B. Peschau, 10:50.

At Carolina Beach the principal features of celebration will be by Eyota Tribe No. 5, Improved Order of Red Men, which will take this occasion to have its annual excursion thither, and by the Hanover Seaside Club, which will have a number of festive features for the pleasure of its friends and members. An admirable schedule has been arranged by Capt. Harper for the steamer *Wilmington*, which may be seen by reference to another column. The fare for the round trip on any boat will be twenty five cents.

Many Wilmingtonians will "take in" the celebration at Southport, which this year will be of more than passing interest as was referred to at length in yesterday's paper. There will be salutes from the big guns at the Fort and the cutter *Algonquin* will also usher in the National holiday with the booming of guns. At night the splendid vessel will give an exhibition of the work with its electric search light, which must be seen to be appreciated.

The steamer *Compton* will observe the following programme for the day: Leave the city at 8:30 A. M., 2:00 and 7:30 P. M. Leave Southport at 11:30 A. M., 5:30 and 11:30 P. M. The steamer *Southport* will also connect with the *Wilmington* at each arrival at Carolina Beach pier.

Another popular retreat to-day will be Lake Waccamaw, and for the accommodation of the public the A. C. L. will run a special train, leaving the city this morning at 8 o'clock and returning at 8 o'clock to-night. The fare for the round trip will be only 75 cents.

At the Ocean View Hotel.

Visitors to Wrightsville Beach to day can find no better place for amusement than the Ocean View Hotel. There will be music and dancing all day at the pavilion, while those not interested in terpischorean features may turn their attentions to surf bathing, feasting etc., to say nothing of playing the "one baby, one cigar; two baby, two cigars; three baby, half a dollar" game that is going on there with the grinning "coon" behind the canvas. There is also a "cane rack" in full operation and at night there will be a splendid display of fireworks. The hotel will serve a sumptuous "Fourth of July" dinner to it's guests.

No Paper To-morrow.

Conforming to the usual custom in the Wilmington newspaper world, there will be no issue of the STAR to-morrow, notwithstanding the double-header at Raleigh to day. The public will doubtless appreciate the fact that the "Fourth" should be as "glorious" for the newspaper worker as well as for the remaining contingent of mankind.

FESTIVE KNIGHTS OF PYTHIAS.

Enthusiastic Meeting Followed by a Social Session Last Night.

Jefferson Lodge No. 61, K. of P. had a most enthusiastic meeting and a festive social session last evening at Castle Hall, the occasion being the installation of new officers and the conclusion of the membership contest inaugurated at the beginning of last term.

The following are the new officers:

C. C.—W. L. Holden.
V. C.—Anson Alligood.
P.—E. F. Jones.
M at A.—W. L. Williford.
M. of W.—J. C. Morrison.
I. G.—L. O. Smith.
O. G.—Geo. W. Branch.

These were installed by Deputy Grand Chancellor E. H. Munson assisted by H. E. Bonitz, G. M. A.; J. H. Dreher, G. P.; J. H. Taylor, Jr., G. V. C.; James W. Monroe, G. M. W.

Just prior to the installation two candidates were given the rank of Knight and upon conclusion of the lodge exercises a very pleasing event took place in the presentation to Mr. Alex. S. Holden, the enterprising keeper of records and seals of the lodge, of a handsome gold medal for having secured the largest number of new members during the term. The formal presentation was made by A. R. Dunning, Esq., in a neat speech, happy and graceful. This was responded to feelingly by Mr. Holden. Then there was a spread of bountiful refreshments, including ice cream, cake, etc., and a thoroughly enjoyable season was spent.

Jefferson Lodge now has more than a hundred members and is enterprising, if anything at all. Many new faces were seen in the lodge room last night and great enthusiasm manifested. The next joint Pythian meeting will be held with Jefferson on July 19th.

THE ATLANTA EXCURSION.

More Than a Thousand Georgians Will be at Wrightsville To-morrow.

The annual excursion of the Masonic Temple Association and the Retail Grocers of Atlanta, Ga., for the benefit of the Masonic Temple building fund of that city, will reach Wrightsville Beach to-morning before the breakfast hour and fully a thousand people are expected. They will remain here for three days.

The train, with ample sleeping car accommodations, will leave Atlanta via the S. A. L. at 7 o'clock this evening and will reach Wilmington before day to-morrow morning. Governor Aycock has courteously placed at the disposal of the Masons and their friends 200 of the State Guard tents and these will be occupied by a number of the visitors during their stay here.

The arrangement committees are composed of the most prominent people of the Gate City and are as follows:

Masonic Temple Association—Hon. Hoke Smith, Messrs. J. W. English, J. L. Mayson and T. E. Ladd.

Grocers' Association—G. S. Prior, I. S. Mitchell, George Sims, B. E. Gardner and A. C. Minhinnent.

POPULAR YOUNG PEOPLE WEDDED.

Miss Lavinia Gillican Became the Bride of Mr. Bellamy Harriss Yesterday.

A very quiet but an exceedingly pretty marriage ceremony was performed yesterday afternoon at 5:30 o'clock at the home of Mrs. Annie B. Gillican, No. 510 Grace street, when her charming daughter, Miss Lavinia D. Gillican was led to the altar by Mr. Bellamy Harriss a popular and enterprising young business man of this city.

The parlors of the home were effectively decorated with a wealth of rare flowers and plants, and the happy young people were joined in matrimony by the Rev. J. N. Cole, pastor of Grace M. E. Church. Miss Bessie Walker was maid of honor and Mr. Robert N. Harriss, brother of the groom, best man. The bride was given away by her eldest brother, Mr. E. O. Gillican, of New York city, a travelling passenger agent of the Atlantic Coast Line.

Mr. and Mrs. Harriss will spend their honeymoon at Wrightsville.

LOCAL DOTS.

— The steamer *Hurt* will run an excursion for the benefit of Fayetteville people to day.

— The annual picnic at Six Forks, four miles east of Burgaw, Pender county, will not be held this year until July 27th. The public is invited to "come and bring well-filled baskets."

— Sheriff Stedman yesterday morning "swore in" five policemen to do duty at Wrightsville Beach, assisting Beach Officer Martin. They are Police Sergeant C. S. Burnett and Policemen E. R. Chadwick, E. Skipper and D. D. George.

— The STAR received yesterday through the D. L. Gore Company a "first cotton bloom" from Mr. Dan Leonard, of Kerr, Sampson county. It was plucked on July 1st, and was from a very fine stalk as a leaf accompanying clearly indicated.

New Pastor to Arrive.

Rev. C. W. Kegley, the new pastor of St. Matthew's English Lutheran church, is expected to arrive from his home at Wytheville, Va., to preach to his congregation next Sunday. He will likely get here Friday.

Mr. James Sebring and Mr. "Willie" Warren, left fielder and third baseman, respectively, did the honors on the slab for Wilmington yesterday afternoon, and in view of the fact that they were pitted against Smith, Raleigh's crack twirler, who pitched a phenomenal game, and that the fielding at times behind them was ragged, it is yet a compliment to these two young gentlemen and the team as a whole to say that the best King Kelly's crew could do was to make the score 6 to 0 in their favor.

Sebring pitched the first four innings and he led off superbly, but in the third and fourth innings the visitors jumped on his puzzlers with a vengeance and pounded him for three runs. Then the sturdy little Warren perched upon the slab and with no practice whatever this season, held the score and hits down to a nicety. His work was really of a very high order.

The visiting "Statesman" gave us a gilt edge article and though he was liberal in the distribution of free passes, he allowed but one hit and was in the game up to his neck all the way through. Had the regular depleted pitching staff not have been held in reserve for the double-header at Raleigh to-day, it is doubtful if the Giants could even then have withstood the onslaughts of Mr. Smith, who easily outclasses either Grand Stand Favorite Stanley or Good Natured Stocksdale.

Both teams went out beautifully in the first inning, "Davy" having gotten the only single. The run-getting by the visitors opened up in the second on a pass to Atz, a sacrifice by Sorber and a passed ball by Thackara. The "Turckles" salted away another run in the third on a two base hit by Smith and an error of Clayton by which the batter got third, a pass to Venable, an uneffectual hit by Stanley to second on which Smith crossed the rubber with two men down. Kelly went out to short.

The fourth silenced the rooters and rooterinas when Atz, the very first man up, smashed out a double and Sorber, next at the willow, lined out a three bagger, scoring Atz Hennager, out to pitch; Stockdale walks; LeGrande flies out to deep left; Sorber scores; Smith forces "Stocks" at second and the funeral procession has stopped.

In the fourth the agony was temporarily suspended and Warren relieved Sebring in the box, Allen assuming third cushion and Sebring going to his accustomed "posish" in left.

The visitors got their first run on Warren in the sixth on one of those rare (not rank) errors of Devlin, a pass to Hennager and a scratch hit by Stocksdale. Then for two innings King Kelly could do nothing with Warren and ditto Wilmington as to Mr. Smith. The Turtles, however, got their backs up in the ninth and added another horizontal to the run-getting column on an error of Allen in handling Stocksdale's hit, LeGrande's sacrifice and a conglomeration of putrefied errors resulting from "Tacks'" inadvertancy in not being in his position when "Stocks'" happened to be making his way home, via third base.

Features of the game were Stocksdale's one hand catch of Crockett's drive; Smith's pitching, which was the best ever seen on this diamond this season, and Devlin's beautiful stop of a line drive by first base. The latter took the breath from the cotton bloom editor of the STAR.

Umpire, Mr. Staley. Attendance, 350. Time of game, 1:35.

The Turtle Victory Was Not Unexpected.

— Warren showed capacity in the box and will make a good reserve pitcher.

— Raleigh has four good pitchers, and two of them work in the out field regularly.

— Those who believed the Giants would win yesterday were "few and far between."

— To the lady lovers of base ball: Don't forget the meeting at the Elks' Temple at 5.30 to-morrow afternoon.

— It is expected that Allen will pitch in the morning and Stewart in the afternoon game at Raleigh to-day

— The Giants and Turtles left for Raleigh last evening at 7 o'clock. They were due at Raleigh about 11 p. m.

— If the Giants, in their crippled condition, can win two of the four games at Raleigh they will do wonderfully well.

— Sebring distrusted himself before he went in the box. He said he was apprehensive that he could not control the ball.

— July 8th, 9th and 10th Wilmington plays at Charlotte. On the 11th, 12th and 13th Charlotte plays our Champions here.

— The horse editor, along with the STAR family, will take a rest to-day. Consequently, there will be no paper issued Friday. We'll come again Saturday.

— Now that the management have taken action in the matter of supplying one of the two crying needs of the Champions, the lovely women of Wilmington may be relied on to do the rest.

— Richmond *Dispatch*: "Manager Ashenback, of the Tarboro team, who went to Philadelphia at the close of the game on Monday, sent three players from Philadelphia and one from Washington for a trial."

— Warren went in the box at the beginning of the fifth inning. He held the Turtles down to two runs during the remainder of the game, and one of these runs was the result of rank errors by the Giants

— The fair rooterinas are urged to attend the meeting to be held at the Elks' Temple Friday afternoon at 5 30. They are relied on to make the bazaar or lawn party to be given for the benefit of the Champions a complete success.

— Wilmington was compelled to sacrifice the game to Raleigh in order that she might reserve Stewart and Allen (her only pitchers) for the two games in Raleigh to day. Is any argument now necessary to show that a third pitcher should be engaged?

— The faithful four hundred who looked on in dismay at the game yesterday will be glad to know that another good pitcher was telegraphed for last night, and is expected at Raleigh in time for Saturday's game. He is said to be also a good batter and outfielder.

Another Pitcher Signed.

Announcement is made by the management of the Wilmington team that Pitcher Willig, of Williamsport, Pa., has been signed and will report for duty at Raleigh on Saturday. Reference to his record has already been made in these columns and it will suffice to say that he was telegraphed for last night, and that last year he pitched for Albany in the New York State League. This year he is with the Weedsport team of the Lake Shore League, which has not the National League protection. While the management did not feel justified from a financial view of the situation to sign the new twirler, yet it is believed that the good ladies of the city in their bazaar and the citizens, who will be approached for subscriptions, will make it all even up in the end.

Games On Other Diamonds.

Negro Brutally Assaults Another.

Justice Fowler yesterday sent to jail for the forthcoming term of the Superior Court, Harrison Brown, colored, charged with murderous assault upon Eddie Eggerson, his room mate at a colored dwelling in "Brooklyn." Eggerson had lost a sum of money from a trunk in the room and had intimated that Brown had stolen it. On the morning of June 28th, while Eggerson was standing in front of the bureau in the room arranging his cravat, Brown went into the yard, secured an axe handle and approaching the negro at the glass from the rear, felled him to the floor by a heavy blow across the left eye and struck him three times while his victim was on the floor unconscious. He was only yesterday able to be up to prosecute his assailant.

— Deputy Sheriff Harvey Cox left yesterday with an insane colored woman for the Goldsboro State Hospital.

Superintendent of Fire Alarm.

Mr. W. J. Kirkham was yesterday appointed superintendent of the fire alarm system to succeed Mr. John T. Yates, resigned. He was appointed by the Fire Committee to whom the matter was left by the Board of Aldermen. Mr. Kirkham has formerly filled the position and is a man abundantly experienced in the work. Mr. Ed. Harr was elected as a fireman to succeed Mr. Yates, Mr. Kirkham having charge only of the alarm system and the pay of the two amounting to the same as heretofore.

The Morning Star.

BY WILLIAM H. BERNARD

WILMINGTON, N. C.

THURSDAY MORNING, JULY 4.

MR. HERBERT M'CLAURINIZES.

Mr. Hilliary A. Herbert, Mr. Cleveland's Secretary of the Navy, has not been heard from often lately in the field of politics, but he got a chance to orate a few days ago when he addressed the Bar Association of Alabama at Montgomery. That the members of the Constitutional Convention might get the benefit of the wisdom that fell from his lips they took a recess and many, if not most of them, went to hear him. The address was ostensibly to the lawyers, but it scattered so that it took in the whole range of subjects that do now or have for years engaged the attention of the American people, especially the Southern people, so that his speech was made more to them than to the lawyers. Scattering as it was, and touching upon so many things about which the law- [illegible] n he addressed knew as [illegible] did, it was a remarkable [illegible] altogether appropriate [illegible] it the lawyers who were [illegible] couldn't get away had to make the best of their unpleasant predicament and sit it out.

The noteworthy portions of his speech were his reference to our insular possessions and his approval of the administration plan of government, and defence of independence in politics. He does not believe that the people of those islands are competent for self government and asked why should the people of Alabama, who are now proceeding through their constitutional convention to eliminate the incompetent element from politics, find fault with the McKinley administration for doing the same thing that they and other Southern States are doing. He, like ex-Senator Pugh, says we have the islands taken from Spain, and asks what are we to do with them? "Are we to govern them or let them govern us?"

With all due respect to Mr. Herbert we are not reduced to that dilemma, for they can't govern us nor take any part in governing us until they have representation in proportion to their numbers in the U. S. House of Representatives and the Senate, and that they will never have. It is the veriest rot for Mr. Herbert to talk of their governing us and on that presentation of the case argue our right and the wisdom of our governing them.

Mr. Herbert was in Mr. Cleveland's cabinet when the "Republic" of Hawaii was seeking recognition from this Government. Mr. Cleveland wasn't satisfied with the method of establishing the Republic, or how far it was supported by the people, and therefore he sent "paramount commissioner" Blount to investigate and report, and he never did recognize that Republic. The people of Hawaii might not have been competent for self-rule, but Mr. Cleveland believed they had some right to say what kind of a government they should have. Mr. Herbert doubtless agreed with him in that.

The Filipinos have as much right to be consulted as to the government established over them as the Hawaiians had, and Mr. Herbert's friend, Grover Cleveland, would have so held if he had been President when the war with Spain ended.

What we contend for, and what every man who believes in the principles of Democracy contends for, is that being separate peoples, the inhabitants of those islands should have the privilege of self-government, and that we have no right to govern them because we think we can do that better than they can do it for themselves, which may possibly be true. There is no parity between the cases of these islands and the Southern States, which by his question, Mr. Herbert would make it appear.

There is a way out of that difficulty without doing injustice to these people or running the risk of being "governed by them," and that is to let them govern them- [illegible] ve, professedly at least, [illegible] let Cuba do. That will [illegible] problem and if we refuse [illegible] t, it will simply be be- [illegible] pirit of grab and lust for gain are mightier with us than devotion to principle or plighted faith.

Another noteworthy feature of this speech was his defence of "independence" in politics, not the independence of the man who will not acknowledge allegiance to any [illegible] but the independence of the [illegible] r who because the party platand nominees don't suit him [illegible] s out of the traces, arrays himself against his own party and votes against it. That's what he calls independence in politics.

He declared that no man ought to support any platform or any candidate to which or whom he objected. When Mr. Herbert was talking that way he was putting in a sort of post hoc defence of the kicking he did in 1896, when he followed Cleveland's lead, refused to stand on the Democratic platform and voted for Palmer and Buckner, and in 1900, when having no candidate to throw his vote away on he probably voted for McKinley and Roosevelt.

He took occasion in this connection to commend the Alabama Democratic papers which refused to support Bryan, the candidate of their party, and the handful of Alabama Democrats who did likewise. They were very much pleased with this part of his speech.

But when Mr. Herbert was elected several times to Congress by the Democrats of his district he did not believe so much in "independence in politics" nor in kicking against party platforms. He then believed that loyalty to party was commendable and something to be applauded. When he kicked against the Democratic platform and nominees in 1896 he kicked himself out of the party, and doubtless has been somewhat lonesome since. Perhaps he is tired being lonesome, would like to start a little party of his own, and took this opportunity to inaugurate the work of trying to McLaurinize Alabama. In this he will be simply playing assistant to the Republican party, as he was in 1896 when he was running with the little gold contingent.

MORE HYPOCRISY.

It is the regulation thing with the Republican papers in the North which discuss the restricted franchise movement in Southern States to say that what they object to is not restricted or qualified suffrage, but discrimination made between the negro and the white man in favor of the white man, from which it may be inferred that if a white man were disfranchised for every negro that is they would not object so much, if at all.

They are driven to this fraud by the course pursued by the McKinley administration in withholding the ballot from the people of the insular acquisitions on the ground that they lack the necessary intelligence and experience to qualify them for suffrage. They therefore can not find fault with the Southern States for taking steps to protect themselves from the unfit and incompetent element on which the Republican party conferred suffrage when, to punish the South, it put the emancipated slave, "the bottom rail," on top. But we do not go far enough and disfranchise enough to suit these organs. We do not include white men enough in the limitations, and they exclaim that if suffrage were based on intelligence, and that alone, it would be all right.

They are simply playing fraud in that, for if they were honest in it they would be advocating qualified suffrage, suffrage based on intelligence, in their own States. They are not doing that. A few of the Eastern States have educational qualifications, but they were not inspired so much by the desire to have an intelligent electorate as to disfranchise the foreign element of their populations, more of whom than of natives would be disfranchised by educational qualifications. They wanted to get rid of the foreign vote just as we want to get rid of the negro vote, although the foreign vote was not a tithe of as serious a factor with them as the negro vote is with us.

The organs which are criticising the South and pretending to favor suffrage based on intelligence, are simply playing this fraud because this is the only thing they can play to keep up the agitation against the South, since the administration at Washington has turned the dark-skinned natives of our insular possessions down.

THE AREA WIDENING.

The oil excitement seems to have spread throughout all the country west of the Pennsylvania oil fields and east of the Alaska border. A little while ago they were discussing the probable extent of the Texas fields, but now the question is not so much where oil may but where it may not be found. Borings have demonstrated that it exists and in abundance in sections where a few years ago its existence was not thought of. Since the tapping of those great gushers at Beaumont, in Texas, a number of others have been opened in Louisiana at distances so far apart as to indicate a wide field in that State. It has been found in Florida, Alabama, Georgia and in new sections of Tennessee and Kentucky, and since then it has been found in Kansas, reported finds come from Iowa, and the biggest gusher of all has been opened in the Creek Nation in the Indian Territory.

The number of these finds and their localities, and the fact that they cover an area extending from the Gulf to the Lakes and from the Alleghanies to the Pacific, is proof that oil in a greater or less quantity underlays this whole country and that it will be found in workable quantities throughout a vast area. Of course the quantity and the profit in it will depend upon the geological formation, just as flowing or abundance of water in artesian wells depends upon the geological formation, although water may be found anywhere. While these discoveries are a good thing for the country generally, they will be a godsend, if found in abundance, to Kansas and Iowa, where fuel is scarce and where they are so dependant in winter on coal transported considerable distance.

BOOK NOTICES.

The July *Review of Reviews* is a very interesting number, discussing a variety of subjects which are now topics of thought, with the "Progress of the World" and "Leading Articles of the Month," both of which are full of information and exceedingly valuable. This number is well illustrated. Address Review of Reviews, 13 Astor Place, New York.

The *North American Review* for July presents a fine list of contents, embracing papers on political, economic, religious, scientific, trade and other subjects which are now engaging attention in this and in other countries. There is a great deal of food for thought in some of these papers, while all are interesting. Address North American Review, Franklin Square, New York.

We are under obligations to F. Tennyson Neely Co., publishers, 114 Fifth Avenue, New York, for a copy of Col. John A. Joyce's Biography of Edgar Allen Poe. It is an eloquently written history of the life of that interesting personage and throws much light on his peculiarities and eccentricities, as shown by the private letters published, which give a good insight into the man, of whom too many have seen only one and that the weaker and less attractive side. It is a neatly printed volume of 218 pages, handsomely bound in cloth. Price $1.00.

FLORENCE, S. C., Nov. 26, 1900.

I was first advised by our family physician in Charleston to use TEETHINA with our baby when she was but a very young infant, as a preventive of colic and to warm and sweeten the stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from the dangers that are consequent upon the use of drugs and soothing syrups, that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their babies quiet.

SPIRITS TURPENTINE.

— Stanly *Enterprise*: From the best information we can give, there will be a general average of two-thirds a crop of wheat this year in Stanly as compared to last.

— Lumberton *Robesonian*: Mr. R. McK. Rozier, who lives about five miles from Lumberton, has been married for thirty years and has eight strong, healthy children. No member of his family uses tobacco or stimulants of any kind, and he states that for the thirty years he has been married he has only had one professional visit from the doctor.

— Durham *Herald*: The 16-year-old daughter of Mr. and Mrs. Hugh Green, of Morrisville, was starting a fire late Monday afternoon when she was burned in a very painful and probably fatal manner. She was pouring oil on the fire when the oil can exploded and she was enveloped in flames. Before help could reach her she was burned in such a manner that it is feared that she will die.

— Lexington *Dispatch*: Mr. Ed. H. Maley showed us something out of the ordinary, at least to us, last Friday evening. It was a piece of rock cut and dressed about eighteen inches long and was perfectly flexible. The rock can be taken in the hands and bended an inch or more out of plumb without breaking it. Mr. Maley secured the curiosity in Stokes county, where the species is found in large quantities at a place at the foot of the mountain, near Moore's Springs. Mr. Maley says the rock can be secured in strips several feet long and that these long pieces can be bended several inches.

— Tarboro *Southerner*: John Cutchin, about 38 years of age, met with a horrible death Saturday night, unless he was so stupefied that he was unconscious all the time the silent, deadly drama was being played between the fork of the roads at Moore's crossing and a small field on the road and Speed, near which the deceased lived. He was here Saturday afternoon and left in the evening on a cart. On his way out he was met on the road and passed, and this was the last seen or heard of him alive. Next morning he was found lying stark and stiff in death in this field, with the mule a hundred yards away and still hitched to his cart. Just after turning off from the Tarboro-Lawrence road the cart gave a lurch and the sleeping driver lost his equilibrium. He fell sideways, his head passing between two spokes of the wheel. The mule did not become frightened, but the body prevented the wheel from turning, and this increased pull caused the animal to slow up and eat on first one side and then the other till the field was slowly reached. The human brake was still effectually applied and continued for some time till the mule backed. This movement caused the body to roll to the ground, where it remained till found.

— Fayetteville *Observer*: Two little boys were minding cows on the banks of the Cape Fear yesterday, when they decided to take a swim in the river. One of them—the eight year old son of Mr. Vander Johnson—soon lost control of himself and was drowned. —— Monday afternoon a negro's house in Ceder Creek was entered by two young white men and robbed of a lot of provisions. The negro saw them all the time, but was not able to cope with them. When they had gone he alarmed the neighborhood and a posse was organized with township constable J. W. Carter at the head. The men were soon run down and captured. When they were brought to jail here last night they both confessed to being escaped convicts. One gave his name as Charles Hair, from Wilkes county, and the other as E. M. Fedder, of Mitchell county. Both are young, hardy looking mountaineers, and both were sent to the penitentiary for murder. One shot and killed his rival in love during a quarrel and the other shot and killed a young man during a dispute over a game of craps. Hair was serving a ten year sentence and had only 11 months longer to stay. Fedder was just entering on a five year's sentence. They said that they escaped last Wednesday from the chain gang at Goldsboro.

The tripping feet—the sparkling eye—the graceful movement—belong not alone to the budding maiden.

These graces are the right—aye *duty of every woman* until the hair whitens—and regal dignity replaces them.

The mother who guards her strength has so much more to devote to the care and education of her dear ones. She should be a comfort—a cheer—always.

Yet how many feel that they have the strength to properly balance the home? The world is listless, weary and morbid. Its blood moves sluggishly and is full of impurities. It needs a kindling, invigorating tonic to set it afire—it needs Pe-ru-na,

THE ONE MEDICINE

in the world which women may rely upon positively. Pe-ru-na is good for everyone, but particularly for women. The various weaknesses which afflict their delicate organism spring from inflammation or catarrh of the mucous lining, and Pe-ru-na is a specific for catarrh in any organ of the body. Any congestion of a mucous membrane simply means catarrh of the organ affected. This is why Pe-ru-na cures all sorts of troubles where other remedies fail. If there is a catarrhal affection the matter with you anywhere Pe-ru-na will cure you.

The Irish Hedge School.

The educational structure for which, taking advantage of the toleration of government, the hedge schoolmaster abandoned his al fresco establishment, was a very humble one of its kind. The peasantry, animated by the strong Irish love of learning, built it for him, just as in modern days they assemble and build huts for evicted tenants.

It was not a very formidable undertaking. A deep, dry ditch or trench by the roadside was usually selected for the site. At the side of the trench an excavation of the requisite area was dug, so that the clay bank formed three sides of the inclosure. This saved the trouble of building walls. Then the fourth side, or front side wall, with a door and two windows, was built of green sods laid in courses, while similar sods raised the back to the required height and pointed the gable ends.

Young trees and wattles cut from the nearest wood and bound together with straw ropes and withes formed the roof timbers. Over these were spread brambles, then came a layer of "scraws," or slabs of healthy bog surface, and over all a thatching of rushes. The earthen floor was pared to an approach to a level, the rubbish cleared away, and a pathway made to the public road. There was your hedge schoolhouse, ready for business.—*Donahoe's Magazine*

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, July 3.—Cotton was irregular to day with the trade extremely nervous. With a holiday on one hand, a drought in Texas on the other and with a monthly government report, room operators were easily frightened to unload or cover shorts, just as the leaders dictated. On the opening the market was quiet with prices one point lower to two points higher. For a time the market was steady, but absence of outside support, with liquidation of July and August holdings by smaller interests turned the market decidedly downward before midday. October dropped to 7.53 and January to 7.56, while the July option sank to 8.46. Wall street bought July at the start and on the break was a fair seller of October. Then came the bureau report, giving an average crop condition of 81.1. For a moment the report was without effect, then some of the more courageous shorts sold prices down two points in the hope of starting liquidation by wavering longs. But for the next two hours the marked took a strong upward direction and at the best figures was twelve to fifteen points above the low level of the day, August rallied to 7.87, October to 7 66, and January to 7.68. Towards the close realizing by pit scalpers caused a decline of five to six points. The close was barely steady with prices net five points lower to three points higher.

NEW YORK, July 3.—Cotton easy: middling uplands 8⅜c.

Cotton futures closed barely steady. July 8.50, August 7.80, September 7.63, October 7.60, November 7.56, December 7.59, January 7 63, February 7.63, March 7.66, April 7.68.

THE LATEST AS TO NERVES AND STRENGTH

It is not muscle so much as the nerves back of muscle which show one's strength and power of endurance. And the study with able physicians of to-day is how to keep the nerves in perfect health and fitted for the strain of everyday living. Headache of every type, nerve weakness, dyspepsia, sleeplessness, languor, restlessness, nervous dyspepsia, muscular weakness, brain weariness, poor circulation,—a thousand different unpleasant feelings and symptoms are due to nerve waste and nerve weakness,—especially in women and children. But how can all this be prevented, one will ask? How can my broken-down constitution be repaired, and nerve strength and full, robust health be secured. Just two points to remember: Determine that you will grow strong in nerves and health, and decide to use at once that most famous nerve cure, COCELIN. It is delicious in taste, quick in action and makes the wearied nerves tingle with renewed strength and every function the stronger and faculty the brighter by its use. Druggists sell it.

KEPT TALLY ON FIBS.

THE ASTONISHING RESULT OF ONLY ONE DAY OF COUNTING.

An Investigator's Discovery of What an Enormous Bouquet of the Flowers of Fable Adorns the Daily Speech of the Average Mortal.

"Do you know that the average American is a hopeless and incorrigible and unmitigated liar?" said an amateur cynic of Baronne street. "I don't mean he lies viciously, but suave mendacity glides off the end of his tongue as easily as molasses flows from a spigot on a warm day in summer. He does it unconsciously, habitually, automatically—just as his lungs expand and his heart palpitates and his hair grows, without any special attention from the rest of his system. He does it because he can't help it. The thing has become a second nature.

"I had all this brought home to me," continued the amateur cynic, "by a very simple little experiment which I tried on myself and a few others no longer ago than yesterday morning. Did you ever see a pocket counting machine? Well, it's a little device shaped like a watch. Whenever you press the stem the needle on the dial jumps a point, and it registers in that way up to several thousand on the principle of a cyclometer. They are used by anybody making long counts and are very handy, because they never forget where they leave off.

"But, to come to the point, something happened to remind me of our national vice of untruthfulness as I was getting up yesterday, and I determined to 'keep tab' on myself and ascertain, if possible, how many actual, out and out lies I put into circulation in the course of the day. I chanced to have one of the little counting machines I have just mentioned, so I slipped it into my pocket and started out.

"The first lie I told was right at the door. Smithson was passing and stopped to shake hands. 'Hello, old man!' said I. 'Delighted to see you,' when as a matter of fact I was deuced sorry to see him, because I owe him ten. I gave the counter a squeeze and hurried on, but before I got to the office I had jogged it nine times.

"What did I jog it for, did you ask? Oh, trivialities, mere trivialities, but at the same time point blank lies, every one of 'em. Whenever I opened my mouth out dropped some confounded hyperbole. I told Jones the joke he insisted in springing on me was the 'best I ever heard' and then made a double tally in assuring his wife she was looking remarkably well when she was looking exactly like a scarecrow. I told another friend I never laughed so much in my life as I had at something or other, I don't remember now what, and still another that I hadn't slept a wink for three nights when I had neuralgia lately—all lies, bald lies, in spite of their harmlessness.

"When I reached the office and looked at the dial, I was horrified. 'Good heavens!' I said to myself. 'It seems to be physically impossible for me to speak the plain truth in the paltriest matters. I'll just remain perfectly quiet for half an hour and keep check on Boggs.'

"Boggs is our head bookkeeper and a pillar in one of the suburban churches," continued the amateur cynic. "He wears rubber overshoes in wet weather, cultivates sandy side whiskers, carries a gingham umbrella, belongs to a building and loan association and has all the other marks of severe respectability. I had supposed him to be the quintessence of cast iron veracity, but when I sat down in cold blood to put him on record I was astounded at the blase fashion with which he frivoled with the truth. I pushed the button on him 15 times in 27 minutes; then he got into a whispered conversation with a caller, and I lost the thread of his remarks. But I am certain if I had been in earshot the counter would have had hard work keeping up with the procession.

"That relieved my mind somewhat, and later on, when I made a quiet test of several of the other fellows in the office, I came to the conclusion that I was no worse than the average, but the average was pretty tough. As far as my investigations went, the invoice clerk held the record. He is a guileless sort of chap, with modest manners and a freckled nose, and I never supposed he had any imagination concealed in his peg topped cranium, but he forced me to push the indicator up exactly 22 times in 15 minutes. During the last part of the stretch, however, he was trying to trade off a secondhand bicycle, and that naturally swelled the returns.

"Of course I soon realized that the idea of keeping count on my own mendacity was entirely impractical and abandoned the effort, but the other data has furnished me with abundant food for thought. My brother-in-law, by the way, insists that we would make a great mistake in trying to weed these flowers of fable out of our daily speech. He says we lie continually and systematically because everybody else lies, and a man who would start out to tell the plain, cold, raw, rectangular truth about everything in life would be little better than an anarchist. He would upset all established standards of value and make it necessary almost to recast the language. Besides, nobody would believe him. But my brother-in-law is a doctor," added the amateur cynic thoughtfully, "and maybe that makes a difference."—New Orleans Times-Democrat.

THE UNSPEAKABLE TURK.

He Scorns All Effort but Military Service and Agriculture.

A Turk thinks it the most natural thing in the world to lose a province and, having lost it, to quit and live elsewhere. He talks quite complacently of leaving Constantinople some day. He will go over to Asia and found another capital. He originates nothing. He takes what he finds without assimilating it and remains profoundly Turkish. He leaves no trace of his occupation except ruins. Practically there is nothing at Belgrade, Sofia and Athens to show that for centuries they were Turkish cities.

All occupations, except agricultural and military service, are distasteful to him. Yet there are two other characteristics even more important than these. The first is his sense of discipline. It is this which keeps together the apparently tottering fabric of the Turkish empire. It makes the half fed, half clothed soldier ready to endure every privation and prevents the corruption and incapacity of the officers from producing the anarchy which would be inevitable in any other country. Sedition is unknown. Even complaints are rare, and were a holy war proclaimed there is not a man who would not be prepared to die in defense of the system of extortion which grinds him down.

His second characteristic is his laziness, in spite of the laborious industry of the Turkish peasant. The fact is that the Turk is too proud to do many things, too stupid to do others. His religion inculcates a fatalism which tends to a conviction that effort is useless.—London Telegraph.

A CREDIT CHECK SWINDLE.

Trick by Which One Firm Got Dollars Without Selling Shirt Waists.

That there is no end to the ways of imposing upon the suffering New York public was illustrated by the failure of a small store recently. The newly appointed receiver was surprised by having many women come to his office with credit checks. These checks were for small amounts, ranging from $1 to $10. At first the receiver couldn't understand it, but upon investigation he learned the details of a pretty system of fleecing.

The firm, it seems, had made a specialty of silk and cotton shirt waists. These were, with few exceptions, shapeless, ill fitting garments, and when the unfortunate women shoppers got home with their purchases and put them on they were disgusted to find that the bargain sale waists were baggy and puckery and altogether so poorly fashioned that it would be next to impossible to make them fit even by a complete ripping up and remaking. Such being the conditions they invariably took the goods back and demanded other waists or their money. It was contrary to the principles of the firm to refund money, and as they seldom had waists more becoming either in style or shape than the ones returned, they were driven to the extremity of credit checks.

"We will get in a new supply of waists in a few days," was the suave assurance of the manager and his well trained assistants. "Your check will be good at any time, and when we replenish our stock you can select a waist that suits you."

But the new stock never arrived, and in spite of the good dollars received from deluded customers without decreasing their capital of waists, the firm became insolvent and then the women began to come with credit checks. So far the receiver has been unable to compensate them for their loss through the swindle which, in its way, was rather neat.—New York Sun.

Keep Your Nerves Sound
Nature Will Do the Rest
USE NO DRUGS
Don't Drug Your Stomach When Natural Forces Containing the Essential Elements of Robust Health and Vigorous Strength May be Had and Used with Absolute Safety and Wonderful Results.
Every organ—every muscle in the human system is entirely dependent upon *sound nerves* for *strength* and action. The nerve centres will keep the nerves sound only so long as the ELECTRO-NERVE FORCE is not wasted. The nerve centre in man is a Natural Storage Battery and the nerves are like so many electric wires—that carry the ELECTRO-NERVE FORCE to the different organs and muscles throughout the body. When through excess or overwork, worry or indiscretion, the Electro-Nerve Force is wasted, the nerve centres are exhausted and the vital organs and muscles become unable to perform their natural functions. Thus in the stomach the digestive organs—not having the necessary force to perform the function of Digestion, dyspepsia develops. The Liver becomes torpid from the same cause and the Kidneys and Bladder develop what is known as kidney trouble and bladder trouble from sheer lack of Electro-Nerve Force wherewith to perform their allotted work.
ELECTRIC HERCULEX
will fill the nerve centres with ELECTRO-NERVE FORCE in a most convenient, safe and natural manner—without any compromise to the stomach (as with drugs) and without any loss of time.
A Man with Sound Nerves
will never become Impotent, never suffer with Nervous Debility, Varicocele, Drains, Losses, Prostatitis, Constipation, Pain in the Back, etc.
Don't waste your time and money on worthless drugs and imitation electric appliances when you can get a 1901 model Electric Herculex and in a pleasant and absolutely harmless manner, treat yourself at home, while you sleep or rest. One night's use will give you encouragement and the improvement will be steady until a complete cure is effected.
IF YOU WILL DO YOUR PART, "ELECTRIC HERCULEX" will remove all symptoms of weakness.
Send for my instructive "Book of Nature" free by mail sealed. Don't judge without knowing just what Herculex IS doing: my book tells you all very plainly and thoroughly. 5,000 cures last year. Write to-day and learn the true road to permanent Health and Strength. All advice free.

WILMINGTON, N. C.

THURSDAY MORNING, JULY 4.

LYNCHING NEAR SMITHFIELD.

Negro Brute Hanged by a Mob for Criminal Assault On a Young White Woman.

By Telegraph to the Morning Star.

CHARLOTTE, N. C., July 3.—A negro named Jim Bailey, was lynched near Smithfield, N. C., last night for assaulting a white girl. Yesterday at noon Maud Strickland, the fourteen-year old daughter of a farmer living near Smithfield, went to the field to carry dinner to her father. When returning she saw a negro in the path ahead. Her little sister was with her. The negro told the sister to go on or he would kill her. He caught Maud, choked her and outraged her. Her little sister ran back to her father and told him what had happened. Strickland and his two brothers found that the negro was Jim Bailey and that he was at work in the field. They tried to capture him. Bailey was armed with a hoe and hatchet and escaped. Later, he met two negroes who disarmed him. Strickland and Charles Powell seized Bailey and put him in a buggy to carry him to Smithfield to deliver him to Sheriff Ellington. While on their way a mob met them four miles from town, took the negro from them and hung him to a tree. Powell went on to Smithfield and told the sheriff of the lynching. The sheriff and coroner went out at mid night and brought the body to Smithfield. It is said the lynching occurred about ten o'clock last night. It is also said that Bailey used a knife upon his victim.

HOMESTEAD HOTEL FIRE.

Loss About $300,000—All Guests Escaped, Many in Their Night Clothes.

By Telegraph to the Morning Star.

RICHMOND, VA., July 4.—The loss of the Homestead Hotel at Hot Springs, Va., last night by fire was complete. The fire started in the bakery shortly before midnight. The blaze spread rapidly by reason of the poor facilities of the fire department. The guests were promptly notified and escaped, many in their night clothes and most of them losing their jewels, and trunks. There were several narrow escapes. Many prominent and wealthy guests were in the hotel at the time. The loss is about $300,000, largely covered by insurance. The Homestead will be re-built at once. It was one of the handsomest and most attractive hotels in the South, and was for years the summer or winter home of many prominent people from all over the country.

APPEAL FOR ASSISTANCE

From Washington Memorial Association For Erection of Memorial Building.

By Telegraph to the Morning Star.

WASHINGTON, July 3.—The George Washington Memorial Association will to morrow issue a general appeal for assistance in the erection of a memorial building to be erected to the memory of Washington. This society numbers 1,500 persons, and it has the co-operation of the national academy of science and the Washington academy of science. The purpose of the movement is to make the memorial building a center of research and learning, and it is hoped that it may prove to be the foundation of a national university, such as Washington had in mind.

BANK FAILURE.

A Private Institution at Mansfield, Ohio, Closed Its Doors.

By Telegraph to the Morning Star.

MANSFIELD, O., July 4.—Sturges' Bank, a private institution, closed its doors to day, following the filing of a deed of assignment by Banker Sturges to attorney H. B. Dirlam. Sturges owned lumber works, real estate and a controlling interest in the Mansfield machine works, the latter capitalized at $300,000. This afternoon Lex. A. Peck was appointed receiver for the Mansfield machine works. Sturges is a close friend of the late John Sherman. No statement of the bank's affairs has yet been made.

STRIKE PLAYED OUT.

Employes of the Plant System in Florida Returning to Work.

By Telegraph to the Morning Star.

HIGH SPRINGS, FLA., July 3.—The strike by the machinists, boilermakers and blacksmiths in the Plant railway system shops at this place which has been on for several days has been terminated by about half of the men returning to work at the old scale of prices. The International Union refused to recognize the strike here and the new men were without work and without pay. After discharging them the officers of the Plant system would re employ but about half of those who struck. Most of the others have left.

BOER PRISONERS.

Governor of St. Helena Denounces "Lies in European Papers."

By Cable to the Morning Star.

LONDON, July 3.—The report of the Governor of the Island of St. Helena, dealing with the year ending March 31, says:

"The lies in the European papers about the treatment of the Boer prisoners even exasperated the prisoners. The latter enjoy large liberty and are well behaved, contented and anxious to work. Many of them are employed by the farmers and others are employed on the roads and wharves.

TORRID HEAT STILL CONTINUES.

No Immediate Prospect of a General Break in the Hot Spell.

MANY DEATHS FROM HEAT.

Kansas City the Centre of the Hottest Area in the Country—Situation in New York—Six Hundred Deaths in Six Days.

By Telegraph to the Morning Star.

WASHINGTON, July 3.—Hot weather continued to day in nearly all sections east of the Rocky Mountains, but as a rule showed some let-up from the previous day. Reports received at the Weather Bureau to night show that temporary releif came from thunder showers in many localities. There are no immediate prospects of a general break in the hot spell. During the afternoon, showers in the upper Ohio valley and the Middle Atlantic States caused a decided fall in temperature. Almost similar conditions are expected to-morrow except that the area over which storms may appear may be extended. The slight disturbance noted last night in the West Indies is not making any marked advance and the relief hoped for in that direction is not materializing. The area of low pressure in the Lake Superior region is moving very slowly to the northeast and remains practically lifeless, so that little relief is expected from that source. It will be warm again in the morning, weather officials say, and the only appreciable breaks in temperatures will result from local storms. Ninety degrees and over were recorded to-day in Atlanta, Boston, Cincinnati, Davenport, Denver, Des Moines, Indianapolis, Little Rock, Memphis, New Orleans, New York, North Platte, Omaha, Pittsburg, Salt Lake City, St. Louis, St. Paul, Springfield, Ill., Vicksburg, Mississippi, While in Kansas City the thermometer registered 102. Hot weather generally prevailed in Kansas and Missouri, these States getting little relief. In Washington the thermometer reached a maximum of 96, but toward evening it grew cooler gradually until at 8 o'clock 80 degrees prevailed. There were fifteen prostrations from heat and two deaths reported up to 10 o'clock to night.

Deaths at Pittsburg.

PITTSBURG, July 3.—Eighty-six deaths directly attributable to the excessive heat have occurred in Pittsburg since last Wednesday. Of this number 64 were reported since Sunday night.

BOSTON, July 3.—During the six days of excessive heat which have prevailed in New England before to day nearly one hundred deaths have occurred which have been attributed to the weather conditions. Of this number 24 have died in Boston.

Many Deaths in Baltimore.

BALTIMORE, July 3.—Twenty-seven additional deaths from heat were reported to the police up to midnight to night. Thirty-five cases of prostration is the record for twenty-four hours ending to-night. The grand total so far is 88 deaths and more than three hundred cases of prostration.

While the maximum temperature for the day was not so high as that of yesterday the relative humidity was greater and the oppressiveness more severe. Shortly after 4 o'clock a brisk wind and a brief thunder storm cooled the air.

Situation in New York.

NEW YORK, July 3.—Rain storms of to day with consequent fall in temperature were a God-send to the bulk of sweltering humanity in this city. But as soon as the last storm of the afternoon had passed over the temperature immediately began to ascend. The wind which blew during the storm also commenced to abate very rapidly, until it assumed the proportions of a slight breeze only. These atmospheric conditions, coupled with the very considerable humidity which came as an aftermath of the downfall of water from the clouds, made the suffering almost as intense as it was when the thermometer had registered several degrees higher.

At 12:30 o'clock this (Thursday) morning, it was estimated that the total deaths in the last six days in Greater New York was six hundred.

Most of the hospitals are already crowded to their utmost capacity and many of them have erected tents on their grounds for the accommodation of the heat victims.

Death Rate Increased.

The death rate has increased with such rapidity that the morgue is being taxed as it never was before, and every available foot of that institution is now occupied by corpses. Hospital attendants are collapsing under the extraordinary strain to which they have been subjcted and were it not for the volunteers who have come to their aid, the situation would be greatly aggravated by enforced neglect of heat patients.

Although the ambulance service has been augmented by the addition of automobiles, which have been loaned for the purpose, it is greatly inadequate. The horses used have been most carefully nursed along to preserve their stamina, but notwithstanding this many of them have given out. Their places are being filled from outside sources, and so great is the scarcity of available animals because of the combination of heat and the grip with which New York horses are afflicted that it has been necessary to send to other cities to get a fresh supply.

There were eighty-nine deaths and 107 cases of heat prostration in the boroughs of Manhattan and the Bronx during the hours between 2 A. M. and 10:30 P. M. to-day.

Hottest in the country.

KANSAS CITY, MO., July 3—Kansas City was the center of the hottest area in the country. Within a radius of 200 miles of this city the temperature ranged from 96 to 108 degrees. In central Kansas heat winds are reported as litterally burning up all vegetation. At Leavenworth, Kas., the highest point recorded in this part of the country for years was reached, tee government thermometer in that city marking 108 at 3 o'clock.

At Other Places.

NEW YORK, July 3.—During Tuesday night and to-day the deaths in Newark directly attributable to heat numbered 51, the highest number of the spell. In Hoboken there were 19 deaths. Paterson, which had been comparatively free from deaths, ran its number up to eleven for the twenty-four hours ending to-night. Jersey City escaped with two, New Brunswick scored four fatalities and Elizabeth six. A dozen other places contributed one each to the total, so that the grand total for New Jersey will be in the neighborhood of 100 for the day.

DEPARTMENT REPORT ON CONDITION OF COTTON.

Average 81 1, the Lowest Condition Ever Recorded at This Season. Scarcity of Labor.

By Telegraph to the Morning Star.

WASHINGTON, July 4—The monthly report of the Department of Agriculture will show the average condition of cotton on June 25th to have been 81.1 as compared with 81 5 on the 90th of the preceding month, 75.8 on July 1st, 1900, 87.8 at the corresponding date in 1899, a ten-year average of 86 2, and a fifteen-year average of 87.5. A condition of 81.1 is, with the exception of the July condition reported last year, the lowest recorded condition reported at this season. The condition in the principal States is reported as follows:

North Carolina, 77; South Carolina, 70; Georgia, 72; Florida, 78; Alabama, 80; Mississippi, 86; Louisiana, 84; Texas, 86; Arkansas, 84; Tennessee, 85; Oklahoma, 91; Indian Territory, 88.

There was an improvement of two points in Texas, three points in Arkansas, Oklahoma and Indian Territory, four in Alabama, Mississippi and Louisiana, and seven in Tennessee. On the other hand there was a decline of eight points in Georgia and Florida and ten points in North and South Carolina.

With the exception of Mississippi, where the average condition is one point above the mean of the averages reported on July 1st in that State for the last ten years, and in Oklahoma, where the figures available for comparison covered only six years, the condition throughout the entire cotton belt compares unfavorably with the ten-year averages, Texas and Tennessee being 1, Louisiana 3, Arkansas 4, Alabama 6, Florida 5, North Carolina 10, Georgia 13 and South Carolina 17 points below their respective ten year averages. Not only was the condition of June 25th the lowest condition recorded with the exception of last year for the cotton region as a whole at this season, but in Georgia and South Carolina also, it was the lowest during the entire period of thirty five years for which records were available, while in North Carolina it was the lowest with one exception during the same period.

Excessive rains followed by a heavy growth of grass and weeds have caused much damage in Alabama, Georgia, South Carolina and North Carolina, while in Louisiana and Texas the growth has been retarded by drought. The gravity of the situation is greatly increased in North Carolina, South Carolina, and Georgia and to some extent in other States, by scarcity of labor.

SEVENTH NATIONAL BANK.

Directors Will Raise Money to Pay Depositors and Re-establish the Bank.

By Telegraph to the Morning Star.

NEW YORK, July 3.—The *World* will say to-morrow:

The directors of the Seventh National Bank, at the meeting in the offices of Lawyer Cromwell yesterday (Wednesday) decided not only to raise enough money to pay off all the depositors in full but to make up a fund and take over the $1,600,000 loan made by the bank to Marquand & Co. While no formal announcement was made, it was declared by one of the directors that the Seventh would be reorganized with new interests behind it and resume business as soon as the affairs of the old institution could be straightened out.

The directors will meet again next Tuesday, by which time it is believed National Bank Examiner Reynor will have completed his report showing the exact condition of the bank's indebtedness. In all the directors will have to raise about $2,500,000, but they will not lose all of this, as the Marquand securities in time may prove to be very valuable.

PLATFORM ADOPTED.

By the National Social and Political Conference in Detroit.

By Telegraph to the Morning Star.

DETROIT, MICH., July 3.—The second National Social and Political Conference adopted the following platform:

"We declare for direct legislation and proportional representation; direct nomination of candidates for office; equal suffrage for all regardless of sex or color; honest elections, free from all partisan manipulation or control; direct taxation through progressive land values, inheritance and income taxes; public ownership of utilities; an eight-hour day; sole control of the medium of exchange by the government; home rule; postal savings banks; State insurance and workmen's compensation for industrial injuries; opposition to militarism and conquest and advocacy of peaceful arbitration; demand the same rights and liberties for others as for ourselves."

In the preamble to the platform the conference expressed its condemnation of monopolies, the concentration of wealth and the present policy of this government with regard to its insular possessions.

IN THE PHILIPPINES.

Gen. MacArthur Will Turn Over His Command to Gen. Chaffee To-day.

By Cable to the Morning Star.

MANILA, July 3.—General MacArthur, who will turn over the command of the American forces in the Philippines to General Chaffee to-morrow, has closed up his affairs here and anticipates an enjoyable fortnight in Japan on his way home. He is elated at the progress made during the past year in the islands, and to-day mailed an optimistic report of the situation to Washington.

WASHINGTON, July 3.—The Navy Department to-day received mail reports from Admiral Rogers concerning the general condition of the insurrection in the Philippines. The admiral states that there is little activity among the rebellious element in the North, but that the natives of Samar continue to give considerable trouble, both to the army and the half dozen small naval craft in that locality.

At York, Pa., yesterday, Judge Steward summoned eleven striking moulders to appear before him on Tuesday next to show cause why they should not be imprisoned for contempt of court. The men are charged on petition of the York Manufacturing Company with disobeying the injunction order issued against the striking machinists and moulders on June 15th.

AN OUTBREAK OF STRIKING MINERS.

Postoffice Blown Up With Dynamite and Fifteen Men Killed in a Riot.

N AR TELLURIDE, COLORADO.

Eight Hundred Men Surround the Smuggler Mine—Shooting Still Going On. Call for Troops—Militia Ordered to Assemble.

By Telegraph to the Morning Star.

DENVER, COLO., July 3.—News reached here late this afternoon of an outbreak of the striking miners of the Smuggler mine, near Telluride, in the extreme southwestern part of the State. The information was to the effect that the postoffice had been blown up with dynamite and fifteen men had been killed in the riot. All wires leading to Telluride have been cut by the miners. News of the riot came from Ouray, Colo., across the mountains from Telluride and was telephoned into Ouray from the Camp Bird mine, which is between Ouray and Telluride. The Camp Bird is the property of Thomas Walsh, a resident of Washington. It is said that miners from the Liberty Bell, Tomby, Revenue and Camp Bird mines have joined with the Smuggler strikers, and that 800 men now surround the Smuggler mine. The dispatch from Ouray stated the shooting was still going on when the dispatch was sent. The strike at the Smuggler mine has been on for some time and only recently a citizens committee was appointed at Telluride to try to effect a settlement of the differences between the miners and the owners of the property.

The sheriff of the county in which Telluride is located wired Governor Orman for troops to assist in supressing the rioters. A call for the militia to assemble at their armories at 8 o'clock to night was issued from the adjutant general's department and directed to the companies at Denver and Pueblo.

Matters Quieting Down.

DENVER, COLO., July 3.—A special from Telluride, Colo., says:

Matters are quieting down. The Miners' Union is in possession of the Smuggler mine. The sheriff will revoke his request for the militia if quiet shall continue.

The president of the Smuggler Union mine at Telluride, where the riot occurred to day, is Benjamin B. Lawrence, of New York. Arthur F. Collins, of Denver is the general manager. The strike went into effect on May 1, 1901, and was the outcome of a demand of the miners for an increase in wages. Last week an agreement was entered into between the officers of the mine and the men, whereby they were to abide by the decision of a committee appointed by the business men of Telluride to arbitrate the differences. The committee was working on a basis of settlement when the outbreak occurred.

FREIGHT HANDLERS STRIKE.

A Large Number of Men Are Out at East St. Louis.

By Telegraph to the Morning Star.

ST. LOUIS, July 3.—The striking freight handlers in the railroad yards at East St. Louis now number 1,700 men. Of this number 600 are drivers of transfer wagons who went out to day in sympathy with their fellow workmen. Three hundred clerks also went out.

Some agitators are now among the ranks of the switchmen and the other railroaders and it is said that it is possible a general railroad strike will follow.

Insanity Due to Heat.

CHICAGO, July 3.—While the temperature of to day was lower than that of several days of the past week, the great humidity made it one of the most uncomfortable days the city has experienced during the Summer. There were three deaths, sixteen prostrations and one case of insanity due to the heat. The last case was that of Miss Mary Brown, whose dementia made her enter the residence of her neighbors, where she smashed furniture, glassware and pictures.

Mad Dog Epidemic.

ST. JOSEPH, MO., July 3.—The intense heat has caused a mad dog epidemic in Brown county, Kansas. A number of persons and a large amount of live stock have been bitten, and havoc in cattle has been particularly heavy, death resulting in the course of three days.

Mary Norrie, the 12-year old daughter of Eben Norrie, died to day from the effects of a mad dog bite. A crusade has been started upon all stray dogs and they are being exterminated

NAVY DEPARTMENT.

New Features in Naval Construction That Have Been Decided Upon

By Telegraph to the Morning Star.

WASHINGTON, July 3.—Some new features in naval construction have been decided upon by the Navy Department for the new armored cruisers and battleships now being planned. One of these is an increase of the ammunition hoists to twenty-five in number, so that the six-inch guns on broadside can be supplied with ammunition at the rate of six rounds a minute per gun, or seventy-two rounds per minute for the ship. This will be a marked advance on the best record possible to make under present conditions. Another departure will be the adoption of the stockless anchor, by which labor and time can be saved. Aside from this convenience, the entire forward part of the ship will be altered in construction, and there will be no cutting away to receive the big anchors. Those on the new ships will be the largest in use, weighing 16,500 pounds each. Another new feature in construction will be a device for steering from the flying bridge, and abandonment of steering from the chart house.

TRAIN HELD UP.

Express Safe Blown Open and $40,000 Secured by the Robbers.

By Telegraph to the Morning Star.

ST. PAUL, MINN., July 3.—According to advices to Chief of Police O'Connor, train No. 4, on the Great Northern, leaving Seattle Sunday evening, was held up near Wagner, Montana, about one o'clock this afternoon by a gang of outlaws. The Great Northern Express safe was blown open and $40,000 is said to have been secured.

BUFFALO LITHIA SPRINGS

MECKLENBURG COUNTY, VIRGINIA

These Springs are open for guests from June 15 to Oct 1.

They are approached from all directions by the Southern Railway System.

By recent purchase the proprietor of these springs has acquired a spring of remarkable boldness of **Chlorinated Lithia Water**. The old springs contain the **Carbonate of Lithia**. The invalid can take his choice. The celebrated Dr. Thomas H. Buckler, of Paris, suggestor of Lithia as a solvent for Uric Acid, says: "Lithia is in no form so valuable as the **carbonate**, the form in which it is found in Buffalo Lithia Water," referring to the old Buffalo Lithia Springs.

Springs pamphlets sent on request.
